IFP Fixed pulverizers

IRP Rotating pulverizers

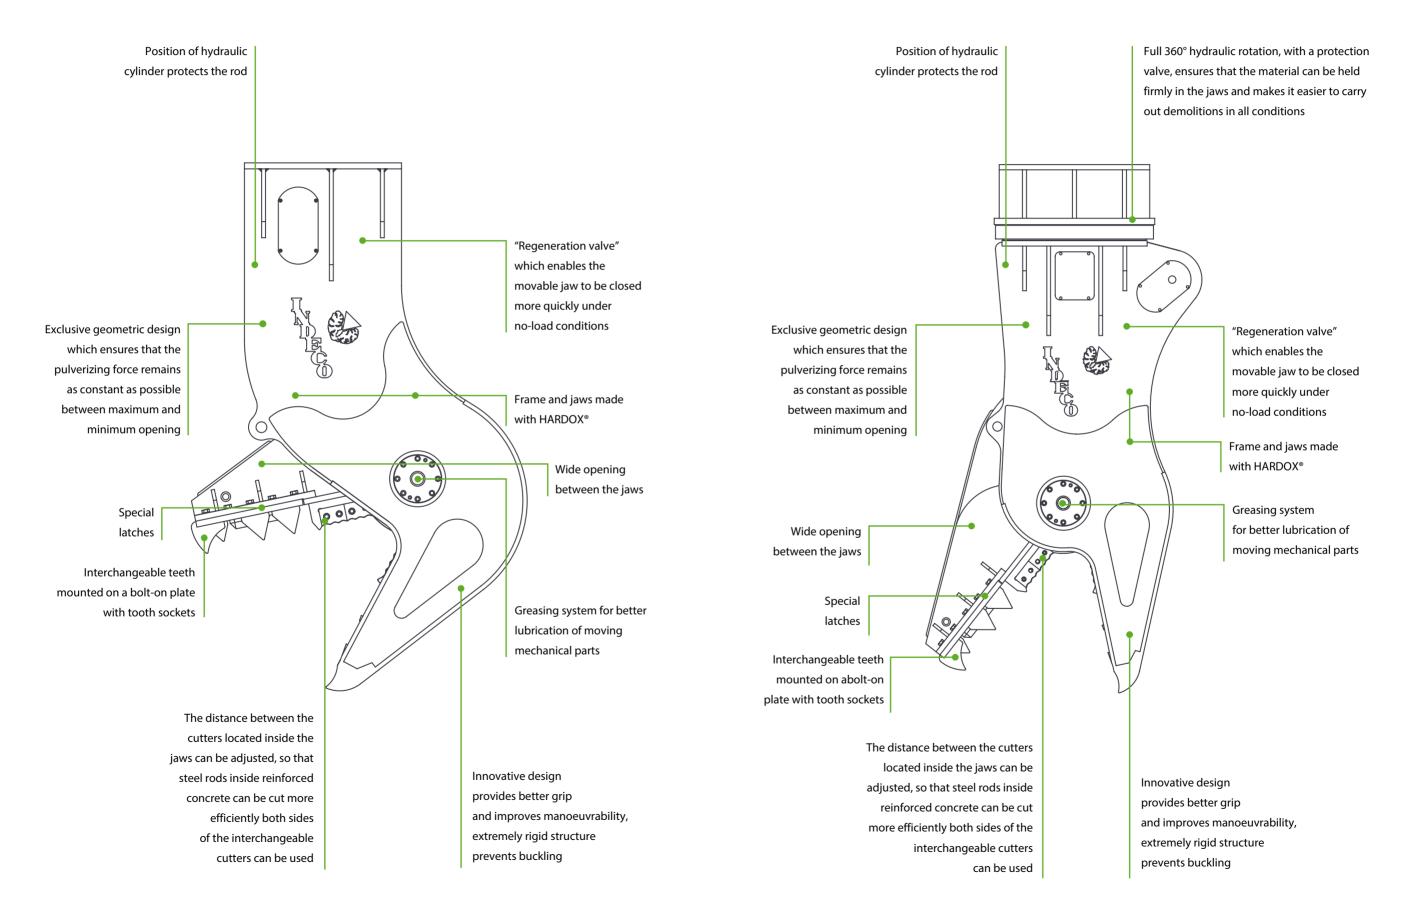

IFP fixed and IRP rotating pulverizers

Exploiting the best in Indeco's advanced technological know how, the Indeco IFP fixed and IRP rotating pulverizers were designed and created following the top quality guidelines already used in manufacturing our famous hydraulic breakers. By using the latest technologically advanced materials, such as special extra-strength HARDOX® alloy steel, Indeco pulverizers are specifically designed to withstand high levels of pressure, wear and abrasion, and prolonged use regardless of jobsite conditions. IRP rotating pulverizers are perfect not only for the primary demolition of buildings, vertical structures, flooring, slabs and external walls. The IFP fixed versions are perfect for the secondary demolition of reinforced concrete materials and structures, and for recycling after separating the concrete from the steel rods.

The unique shape of Indeco pulverizers is a design feature created specifically to reduce the variation in the force required between the start (maximum opening) and the finish (minimum opening) so as to increase efficiency and continuity, and to reduce both working times and stress transmitted to the excavator. The hydraulic system is equipped with a "regeneration valve" which enables the mobile jaw to be closed more quickly under no-load conditions, in order to apply all of the force available only when pulverising material, thus increasing productivity. Other key features which keep Indeco pulverizers efficient in the long term: the adjustability of the distance between the cutters located inside the jaws, so that steel rods inside reinforced concrete can be cut more efficiently; the interchangeable teeth on the mobile jaw (welded onto a bolt-on plate and secured with special latches) for optimal penetration of the material being demolished.

Features of Indeco pulverizers

Technical Data	IFP 8 X	IFP 13 X	IFP 19 X	
Type of carrier	1 4	1 4 5	4 5	
Excavator weight	6 ÷ 18 tons	10 ÷ 21 tons	16 ÷ 30 tons	
Attachment operating weight*	750 Kg	1300 Kg	1800 Kg	
Max opening	650 mm	810 mm	900 mm	
Height	1700 mm	1900 mm	2100 mm	
Width	980 mm	1190 mm	1470 mm	
Jaw width	345 mm	400 mm	450 mm	
Oil delivery	80 ÷ 200 l/min	120 ÷ 200 l/min	140 ÷ 220 l/min	
Maximum working pressure	350 bars	350 bars	350 bars	
Maximum clamping force at tip	50 tons	65 tons	80 tons	
Maximum clamping force at shears	160 tons	210 tons	265 tons	
Shear length	100 mm	180 mm	240 mm	
Max cutting diameter	40 mm	40 mm	45 mm	
Min. closure time	2 s**	2 s**	3 s**	
Min. opening time	1 s	1 s	1,5 s	
Hydraulic connections	3/4″	3/4″	3/4″	
Mounting bracket compatibility	HP 1200	HP 2000 - HP 2500	HP 3000 ÷ HP 4000	

*The operating weight of the equipment includes mounting bracket compatible with Indeco construction standards. Any differences in weight may be due to a different mounting bracket configuration.

**without regeneration valve

Technical Data	IFP 28 X	IFP 35 X	IFP 45 X	
Type of carrier	4 5	5	5	
Excavator weight	20 ÷ 45 tons	28 ÷ 55 tons	33 ÷ 65 tons	
Attachment operating weight*	2800 Kg	3450 Kg	4550 Kg	
Max opening	1000 mm	1190 mm	1290 mm	
Height	2440 mm	2590 mm	3100 mm	
Width	1540 mm	1630 mm	1900 mm	
Jaw width	520 mm	560 mm	600 mm	
Oil delivery	150 ÷ 250 l/min	180 ÷ 260 l/min	180 ÷ 300 l/min	
Maximum working pressure	350 bars	350 bars	350 bars	
Maximum clamping force at tip	105 tons	120 tons	150 tons	
Maximum clamping force at shears	355 tons	380 tons	470 tons	
Shear length	240 mm	240 mm	240 mm	
Max cutting diameter	50 mm	50 mm	60 mm	
Min. closure time	2 s	2,5 s	2,5 s	
Min. opening time	2 s	2,5 s	2,5 s	
Hydraulic connections	1″	1″	1″	
Mounting bracket compatibility	HP 5000	HP 7000 - HP 9000	HP 7000 - HP 9000
